

# GET OUT THE COUNT IN YOUR COMMUNITY!

## 2010 SELF-RESPONSE RATES BY COUNTY IN CALIFORNIA

Percentage of households by county in California that completed the 2010 Census questionnaire on their own.

Filling out the census on your own — self-responding — is the best way to get counted.

**Higher self-response rates** mean **fewer people are likely to be missed** or counted inaccurately and **fewer households will have a visit from a census taker** to be counted in-person. It also means the community has a better chance at receiving its **fair share of services and political representation**.
