

2020 Census NRFU Completion Rates (as of Oct. 13)

(NB: Completion rates are the % of Nonresponse Followup workload that is complete, by Area Census Office. According to the Census Bureau, "[t]he workload includes households that have not self-responded as well as other case types that are used to improve the accuracy of the census, such as quality control cases." **In other words, this is different than the share of housing units 'enumerated' via NRFU.**)
